🌐 zia-jsdev

I am a Full Stack Developer with **2+ years** of experience building web applications with **MongoDB, Express.js, React.js, Node.js, TypeScript, Next.js, and Nest.js**. I have worked on responsive frontends, **improved user experience**, and **backend APIs**, using **Next.js with SSR, SSG, and ISR** for performance optimization. I have experience with **REST APIs, OAuth** and **JWT** authentication, and real-time features with **WebSockets**. I use **Git** and **GitHub** for **version control** and work in **Agile/Scrum** environments to deliver scalable, high-performance applications. Meanwhile, I love problem-solving, team collaboration, and clear communication.

WORK EXPERIENCE

Full Stack Developer / Full Time (2+ Years)

VirtueNetz

As a Full Stack Developer at VirtueNetz, I collaborated with designers, testers, and the team to deliver performance-optimized products.

Full Stack Development

- Built reusable and responsive frontend components
- Connected the frontend and backend by integrating the REST APIs
- Implemented chats and notifications with WebSockets

Full Stack Developer / Internship

VirtueNetz

*During Internship at VirtueNetz, Learned **HTML5, CSS3, JavaScript, TypeScript, React, Node.js, Next.js, and MongoDB** by building projects following the product architecture and best coding practices.*

Full Stack development

- Built the UI of the components of the Real Estate website
- Developed the APIs for the platform
- Connected the frontend and backend with the REST APIs
- Learned and applied the GitHub workflows and pushed the projects to GitHub

EDUCATION

BSCS (Bachelor's in Computer Science)

Virtual University

Intermediate in Computer Science

Danish Boys School RYK Campus

SKILLS

HTML5

CSS3

JavaScript

TypeScript

React.js

Next.js

REST APIs

WebSockets

Git / Github

JWT

OAuth

MongoDB

PostgreSQL

Express.js

Nest.js

Business communication

PROJECTS

Kitchen Konnect [🔗](#)
